

Continuum of Care Product Portfolio

November 2012

Continuum of Care Product Portfolio

Today, you're working harder than ever to control costs while improving clinical outcomes. With VHA's Continuum of Care Product Portfolio, you can do both.

Through the purchasing power of the VHA network, you'll get significant savings on the products and services you need to deliver the best possible care. We offer a comprehensive portfolio for a wide range of facilities, including ambulatory surgery centers, cancer centers, physician practices, long-term care facilities, imaging centers, home health care facilities and pharmacies (retail and closed).

Four reasons to purchase from VHA

1. Savings:
VHA offers the best pricing in the industry.
2. Choice:
You can select from a broad array of products and services, from medical/surgical supplies to capital equipment.
3. Flexibility:
You'll get the financial benefits of standardization, plus the ability to choose the products and services that are right for you and your facility.
4. Service:
Our account support team, dedicated to working with our non-acute members, is just a phone call away.

Take advantage of pre-negotiated contracts

Novation, VHA's supply contracting company, has negotiated all of the contracts in this portfolio. Novation now manages more than \$40 billion in annual purchases, which creates major leverage with suppliers. As a result, you gain access to supplies from high-quality manufacturers at highly discounted prices. In many cases, your cost goes down further as your purchasing volume goes up.

Through VHA's Continuum of Care Product Portfolio, you can purchase laboratory products, imaging supplies, medical-surgical products, repair and operating supplies, telecommunications equipment and pharmaceuticals.

You'll also be able to access VHA agreements that deliver cost savings and value-added services beyond the traditional supply chain offerings. These services can help you manage your practice more efficiently, offer enhanced employee benefits at no cost to you, improve your revenue cycle and secure temporary staffing.

How to use this handbook

Inside, you'll find a comprehensive list of the products and services available to you, plus the information you need for purchasing.

To make sure you get VHA portfolio pricing, always mention VHA's Continuum of Care Product Portfolio or Novation when interacting with any supplier listed in the handbook.

Use the agreement numbers to quickly find contract details online in our Contract Catalog.

Online product information

You can view the most up-to-date product information 24 hours a day on the VHA website. Some agreements require letters of commitment or participation, which can be verified online. Here's how to access the Contract Catalog:

1. Go online to www.VHA.com.
2. From the "Take Action" box, click on "Contract Catalog." Complete the member login by entering your user name and password, or by registering as a first-time user.

Please note: Once you are registered for VHA Marketplace, you can enter it directly, without logging in to the member section of www.VHA.com. If you need help with this process, contact VHA Customer Service at **800.842.5146**.
